

Clatsop County, Oregon, Indexes

**From the *Forebears* Newsletters
From 1986 to About 1997**

**By the Clatsop County Genealogy Society

SPICE CR

What follows are a number of indexes that were printed in the *Forebears* newsletter of the Clatsop County Genealogy Society from the first issue in 1986 until about 1997. We did not print all that appeared in the newsletter. Also included are a few added indexes found in Astoria newspapers and elsewhere.

Word of warning: It is often very hard to read the print or the handwriting and so errors do creep in. We spent many volunteer hours trying to correct the mistakes but realize that this work is not perfect. Keep an open mind about spelling of the names. Also there may be omissions. It is best to look at the original works in the courthouse or elsewhere to check them for yourself.

Also, this book is not meant to be comprehensive. There are many more indexes still available in the newspapers, the courthouse, the libraries, and the archives.

This book is not indexed *in toto*. Perhaps, someday.

DECLARATION OF INTENT PAPERS 1851-1867

The early Declaration of Intent records are usually not very informative, but even this little bit of information may be of value to someone. The following material has been abstracted from Declaration of Intent papers which at the present time, are at the Clatsop County, Oregon, Courthouse. These papers are in the basement of the vault in a bin in the cabinet. They have been folded and tied into bundles and not bound into books as the other Declaration of Intent records were. (They have since been opened up and microfilmed by the LDS Church and are available from them on microfilm. Note from Jan. 1999)

In a nearby area are located two record books. They contain lists of names of those people who declared their intent to become citizens, the former country of allegiance and the date the intent was made. The first book is organized according to date. Much later, another book was made in which these same names were entered in a roughly alphabetical form. Some entries in the first record book occasionally gave more detailed information. It appears that the second book contains some errors that occurred in transcribing material from the first book. A copy of the second book is in the Astoria Public Library. In comparing the books with the loose bundles, it was determined that one or more of the bundles may have disappeared. Therefore, the list below is not complete. When the books differed from the loose papers, that difference is noted in parenthesis. NOTE: Most dates, even birthdates, are accompanied by the modifier "about."

What was generally written in the loose papers was: Name, county filed in (if not Clatsop), the date filed, and the former country of allegiance. Abbreviations were not used for these items. Some papers have additional information which is introduced in the list below by abbreviations. The following is a key to the abbreviations:

B=Birthplace, Birthdate

OR=Date of arrival in Oregon

US=Date entered U.S.; Port of entry

AS=Date of arrival in Astoria

Naturalizations from the Commissioners Law and Probate Index, Vol. 1 For Clatsop County, Oregon

The entries below refer to naturalizations recorded in Law Books, volumes 1, 4, 5, 6, and 7 in the basement at the Clatsop County, Oregon, courthouse, located at Astoria, Oregon. The dates go from about 1850 to 1906. The copies that I worked from were very faint and I may have made errors. If errors are found, please let me know so that I can make corrections. If you plan to order copies of these records, you should ask the clerk at the courthouse to doublecheck the original index to be sure the name and numbers are correct.

Naturalizations were recorded in many different books. The following is from only one index book. If you don't find the name you are looking for, it may appear in one of the other indexes.

For a few of the names below, there is good information in the books referred to. **For most, there is not much more than the name, the date, and the country.** There may be more information in some other record.

Many names are spelled differently than that found for these people in later records. For instance, "Balo" was spelled "Palo" in Finland and is probably spelled with a "P" by all the family members now.

1/79 4/69.70 means that entries are found in Volume 1, page 79 and in
Volume 4, pages 69, 70 and 71.

DECLARATION OF INTENT BOOK 1

(Dates start with Oct 27, 1906)

An alphabetical sort.

This is an abstract of nearly half of *Clatsop County Declaration of Intent Book 1*. Work of abstracting is still in progress. In the original, there is a page for each person, and more information on each page than appears here. The entries are organized by: last name, first name, age, occupation, place of birth, date of birth, residence in county, port of entry in U.S., date of entry, notes. I did not include all the names of the ships.

1914 Clatsop County, Oregon, Voters Born in Finland Who Were Naturalized or Declared their Intent In Other Counties

Compiled by Liisa Penner
April 11, 1995

The following material is from two *Register of Electors* books from 1914 at the Clatsop County Courthouse in Astoria, Oregon, one labeled "Astoria," and the other, "County." The books list all the eligible voters in the county: those who had declared their intent to become citizens and those who had completed the process. (In 1914 those who had taken the first steps toward naturalization were allowed vote.) The list below is only a portion of the total electorate. I abstracted out only those voters whose declaration of intent or naturalization had taken place in a location *not in Clatsop County*. The reason for abstracting these is to help researchers locate naturalization records for Clatsop County residents that can be found in other counties. There may also be some records in Clatsop County. It might be wise to check both places. The original books contain more information than what is given here, such as street addresses in town, and township, range and section numbers out in the country. Also the political party was listed. If any reader would like this information, give me a phone call at (503) 325-7852. *Register of Elector* books can be found every two years from 1900 to 1914 at the Clatsop County Courthouse.

Abbrev.: Sup=Superior, Co=County, Cir=Circuit, CP=Court of Common Pleas, Pro=Probate, Crim=Criminal. J. Day=John Day, Y.R.=Youngs River, D/I=Declaration of Intent only (naturalization not completed). The usual abbreviations for states replaced the originals. Whether the women were born in the United States or not, their citizenship appears to have been dependant upon the status of their husband's citizenship. The men or their fathers were probably actually in the county listed across from their names at one time, but some of the women may never have been in the county listed. In many cases the clerks did not mark whether or not the naturalization had been completed. It appears that the clerks made some errors, as seen in some cases where there is a discrepancy in the information for husband in wife. The handwriting was often difficult to read, so other errors may have crept into this transcription. Some original spelling errors were left in.

Roughly, the Astoria precincts are located as follows: Precinct 1 was at Smith Point at the western tip of Astoria. The precinct numbers increase to the east. Pct. 2 encompassed Astor, West Bond, Flavel, Alameda, etc and 1st Street. Pct. 3, 2nd to 7th streets and 200 numbers on named streets. Pct. 4, 8th to 9th streets, and 300 numbers. Clatsop County, Oregon, Norwegian Voters In 1914 Who Were Naturalized or Declared their Intent In Other Counties

The following material is from two *Register of Electors* books from 1914 at the Clatsop County Courthouse in Astoria, Oregon, one labeled "Astoria," and the other, "County." The books list all the eligible voters in the county: those who had declared their intent to become citizens and those who had completed the process. (In 1914 those who had taken the first steps toward naturalization were allowed vote.) The list below is only a portion of the total electorate. I abstracted out only those Norwegian voters whose declaration of intent or naturalization had taken place in a location *not in Clatsop County*. The reason for abstracting these is to help researchers locate naturalization records for Clatsop County residents that can be found in other counties. There may also be some records in Clatsop County. It might be wise to check both places. The original books contain more information than what is given here, such as street addresses in town, and township, range and section numbers out in the country. Also the political party was listed. If any reader would like this information, give me a phone call at (503) 325-7852. *Register of Elector* books can be found every two years from 1900 to 1914 at the Clatsop County Courthouse.

Abbrev.: Sup=Superior, Co=County, Cir=Circuit, CP=Court of Common Pleas, Pro=Probate, Crim=Criminal. J. Day=John Day, Y.R.=Youngs River, D/I=Declaration of Intent only (naturalization not completed). The usual abbreviations for states replaced the originals. Whether the women were born in the United States or not, their citizenship appears to have been dependant upon the status of their husband's citizenship. The men or their fathers were probably actually in the county listed across from their names at one time, but some of the women may never have been in the county listed. In many cases the clerks did not mark whether or not the naturalization had been completed. It appears that the clerks made some errors, as seen in some cases where there is a discrepancy in the information for husband in wife. The handwriting was often difficult to read, so other errors may have crept into this transcription. Some original spelling errors were left in.

Register of Electors for 1900 (Clatsop County)

People from Denmark

These books can be found in the courthouse and date from 1900 to 1914, just the even years. The following is an abstraction of the Danes from the 1900 book. A copy of this book is in the Astoriana collection at the Astoria Public Library under the title, Record of Electors. You can also find it by doing a search of the books listed under the name Liisa Penner.

*The court could be the county, district, circuit, superior court. The street addresses are the ones used before 1955, the date they were changed. The reverse directory in the back of the old city directories at the Astoria Public Library can help in finding where these addresses were. Sec 7 8/8 means that the person resided in section 7, township 8 north, range 8 west. This location can be found on maps that show the township and range. Many maps do. * is the date the person declared his intent to become a citizen or was naturalized. Example: Anders C. Anderson was employed as a foreman, he was 35 years old, declared his intent to become a citizen or was naturalized on August 8, 1893 at Astoria in the county court and he resided at 120 First Street in Astoria and occupied the whole residence.*

Baptist Church -- Was organized in 1876, with M.J. Kinney, Samuel Gray and G.W. Ray, as incorporators. It now has 11 members. There being no clergyman, meetings are not held regularly. They have a neatly finished church building, capable of seating 250 persons.

There are no private schools, except those connected with churches.

The Fire Department.

Of this place is the best in the State, outside of Portland. Two steam engines and a Hook & Ladder Co., comprise the Department. A.W. Berry is Chief Engineer.

Mail is carried between this place and Seaside three times a week, by way of Skippanon, by the steamer Sam, which makes regular trips to Skippanon.

Mail to Knappton, W.T., twice a week.

Manufactories.

The most important manufacturing establishment here, is the Tannery of C. Leinenweber & Co., situated on the water front of Upper Astoria. The Tannery employs a steam engine of 20-horse power, with all the modern labor saving machinery, and gives employment to 14 men.

The Boot and Shoe Manufactory lately connected with this establishment, employs 30 men. The product of this factory is all sold to one house in San Francisco.

The Astoria Clothing Manufactory, where Oil Clothing is manufactured for the trade, managed by W.M. McCormick, is becoming a house of considerable importance.

Canneries

The production of Badollet & Co's. Cannery will reach 30,000 cases of salmon each year, while the capacity of the establishment is sufficient for the production of 50,000 cases. The following table shows the production of cases of the different canneries:

Anglo-American Packing Co.	15,000
Watson & Bannan	15,000
Eagle Cannery	17,000

Hotels.

The Occident, as a first class house, will take a first class position when compared with any first class hotel in the State, particularly in the estimation of those who are fortunate enough to enjoy one of its exquisite breakfasts.

The Parker House is also a first class Hotel, although not quite so expensive as the Occident.

The Weston Hotel, kept by Mrs. Dagget, situated back from the business portion of the city, is well conducted and well patronized.

The O'Brien Hotel is near the Farmer's Wharf, convenient to the traveling public, where excellent fare can be had for a small price.

The New England Chop House and Lodging House is a comfortable place, where good cooking a clean beds can be had at a low price.

Finns on the 1890 R. L. Polk & Co. City Directory for Astoria, Oregon

The following two indexes were taken from the 1890 city directory for Astoria.

Only those names that appear to be Finnish were indexed on the first list below. Names with “-son” on the end were not included. The people who compiled these names in 1890 were “creative” spellers. Some guesses as to modern U.S. spellings are in parentheses. Uniontown was the main residential area for the Finns. 1st is now Astor Street (on the waterfront). The streets are named in alphabetical order with Astor (1st) at the rivers edge; Bond (2nd) the next south; then Commercial (3d). Uniontown is on the west end of Astoria and Upper Astoria on the east end.

ASTOR STREET ON THE 1880 FEDERAL CENSUS OF ASTORIA

The number above the name of the head of the household refers to the number of the house assigned for the purpose of this census and is in order of the visit made. The census taker did not understand that the second number was supposed to be the number of the household in the building and simply repeated the first number. (Look at the original for more information.)

Concomly Street, later known as 1st Street, and now as Astor Street, was a part of the redlight district in Astoria. The census taker began visiting homes on the west part of the street where conventional families were living. As he progressed eastward, he encountered boarding houses and then the saloons and dancehalls.

About seventeen of the women listed below were probably prostitutes.

COLONY FOR KNAPPA

From the August 29, 1878 Astoria newspaper

Mr. A.K. **Barrow**, one of the reliable residents of Clatsop county who left us on the breaking out of the Black-hills fever [gold] in 1876 returned to his former home near Knappa last week bringing with him several permanent settlers, Mr. Geo. Soles [**Sold**], Mr. **Sloop**, Mr. Fred **Allen**, and Mr. **Wheeler**, with others to come, now en route from Colorado. This party came through from Kelton, via Boise city, Union, Pendleton, and The Dalles, across the Cascade mountains by wagons to Portland, thence by steamer to Knappa. They bring their teams and stock with them, and are prepared to go at once to work upon the fertile soil of "the prairie," which only awaits the coming of hardy people to produce astonishing amounts of everything that grows on land. Mr. **Barrow** is thoroughly informed with respect to that part of the country, and we predict that if the soil there is worked as industriously as a miner would delve in mother earth searching for precious metals, Knappa will prove to be a much wealthier mine than the best in the Black-hills or Colorado.

We extend to them all the hand of welcome, and wish them god speed in the building up of new homes in the land of the setting sun. There is room for more, and we say come. What this country needs is farms and farmers. There is always a cash market and a steady demand for what the soil produces, and we have in all parts of this county, but in Knappa and Nehalem particularly, land already arable that will, with a little attention from the agriculturist, produce its value out of the crops in the first year. There is work for the farmer everywhere and he has only to buy cheap land, look after it, and then it will be only a question of time in this civilizing age, when the farmer becomes a capitalist. In a growing country like this, money in land is always safely invested, and it does not matter much where you place it, if you will settle upon your property and develop its resources.

Raise your sons in the country if you would make valuable and thrifty men of them. There is a fascination in the pernicious atmosphere of the cities that unfits young men for either tradesmen or farmers, if left there too long, and converts them into idlers with the commune. The country needs developing; the land is here, and farms are offered in any part of the state to actual settlers, upon terms that must insure a competence and an inheritance of valuable acres to the sons of the farmer.

KNAPPA -- 1880 CENSUS

The first number is the number of the house; the second is the number of the family in the house. Then follows the name of the person, his age, relationship to the head of the household, his occupation, place he was born, and the places his father and mother were born. I did not include all the information that was on the census.

COLUMBIA RIVER FISHERMEN.

A meeting of the Columbia river fishermen was held at Liberty hall, Astoria, on the 27th day of March, 1878, to fix the price of fish the coming season. Mr. O.V. Carter was elected president, and I.N. Wilson, secretary.

The meeting was addressed by Mr. Chas. Young at some length. He advocated a good price for salmon and told the assembly to lay aside the thoughts of the cannerymen altogether, stick to one another and they could command their own price--and get it. Mr. Joseph Hume being called upon said: My advice to the men is to get the best price for their labor that they could. One thousand men could do more work than five hundred, but he thought that if there were only five hundred fishermen, canneries could get all the salmon they wanted and it would cost them no more. Men used to clear from \$500 to \$1000 in a season when fish were only 20 cents, but they did not do it now. There were too many men at the business who were not really fishermen, which had a good deal to do in spoiling it. He thought that if every man owned his own boat and net, and the canneries laid up 33 1/3 percent, of their boats, each would be independent of each other and make more money in the long run. Got a committee to wait on the canneries and get them to lay up one-third of their boats, you will then have right with you a good thing to have.

It was moved and carried that the proceedings of this meeting together with the names of signers be published in THE ASTORIAN.

It being moved and carried that each man should sign his name to a price which he thought proper and good for the coming season, which resulted in the signing of 197 names; 19 at 50 cents, 54 at 60 cents, and 124 at 75 cents, showing a majority of 51 in favor of 75 cents per fish. PETITION

ASTORIA, OREGON, Sept. 20th, 1878

To the Honorable the Senate and House of Representatives of the Assembly of the State of Oregon.

We the undersigned petitioners learning with regret that your honorable body are about to pass a bill known as senate bill No. 7, which will be to the detriment and injury of your petitioners in the following particulars.

1st, We respectfully request that section 3 of said bill be stricken out and also the April restrictions against fishing in the Columbia river and its tributaries for the following reasons:

1st, Section 3 deprives us of over one hundred miles of fishing surface of the Columbia river.

2d, The boats deprived of fishing on these restricted limits will be compelled to move up the river and intrude on a ground that is at present overdone. Two hundred fishing boats at least fish below this proposed line, and no man in Clatsop county can gain say this fact.

Thus it will be seen that when this space is limited, the river becomes over-crowded, and life is endangered, property destroyed, and this section instead of being a benefit is going to be the alternate ruin of this enterprise on the lower Columbia.

The Sunday closed time, we have no objection to and think that the only protection needed.

April fishing on the river is merely drifting with old nets, to prospect for snags, and other obstructions which come into the river during the nine months that there is no fishing done in said river. If then you have to spend the first fifteen days of May along with the weekly closed time, it is perhaps well.

Therefore, your petitioners respectfully but energetically remonstrate against the passage of the bill as it now reads, and that section 3 and April be stricken out and your petitioners will ever pray.

Names of those who do not agree to sign the resolution:

JOHN GILL

PETER RASK, at Megler's cannery sympathizes with the cannery men, and thinks they cannot make money enough at sixty cents, and says he is willing to fish for whatever they will pay. The union have the names of three hundred others, who have no particular place to fish, but indorse the resolution. The committee request fishermen owning their own gear, to desist from fishing for a few days till the issue is settled. LAWSUITS: THE STATE OF OREGON VERSUS "X"

(1860s Through the 1880s)

Not all those sued by the State of Oregon were villains. Many respectable citizens can be found in the following list which was taken from the Judgement Roll Index at the Clatsop County, Oregon, Courthouse. A copy of the Judgement Rolls (packets of papers) can be obtained from the Clatsop County Circuit Court, Astoria, OR 97103. Some names were incorrectly spelled in the original records. Many were hard to decipher and may also be incorrectly spelled.

SATISFIED PURCHASERS OF THE MONARCH KITCHEN RANGE IN THE ASTORIA, OREGON, AREA

From an advertisement in the March 9, 1913 issue of the Morning Astorian.

A few of the names are misspelled. Cee should be See and Newnon should be Noonan, for example. City refers to Astoria. Manhattan S is Manhattan Station.

2. Oregon death index on microfilm 1907-1990s APL. Patti Murray was abstracting the Clatsop County names from these and printing them in the CCGS quarterly newsletter.

10. Death records 1907-1924 (books) CH
11. Death records for Clatsop County (loose certificates). The Clatsop County Genealogy Society is doing a book on these. CH
12. Coroner's reports up to 1949 CH and Oregon State Archives
13. Mortality schedules of the federal census (1850, 1860, 1870, 1880)
14. Social security death index (sold on CD rom and available on internet). Most helpful for 1960's to mid 1990s.
15. Oregon Historical Society indexes in Portland.
16. City directories when the name appears year after year, then disappears. Some years list spouses and if women are widowed. Also find the old neighbors and question them. APL
17. Deed records (when entries for a person end). I even found one death record in one once CH

52. Check Washington death records, etc. Remember that "the river was the road." People here often had relatives across the river and may have gone to stay with them.
53. Look at lists of sales of property due to delinquent taxes, that were printed in the newspapers yearly. There is the notation of "Heirs of" for those who had died.
54. Check newspapers for the same type of notes for assessment lists for sewer, etc.

There are some other resources for Washington State available locally.

DEATHS LISTED AT THE END OF THE YEAR IN THE DAILY ASTORIAN, ASTORIA, OREGON IN 1889, 1898, 1900, 1903, 1904, & 1906

Some of the dates below are the dates of death; some, the dates when the deaths were reported in the newspaper, and some are the dates that the bodies were found. The original compilers made many errors, especially in spelling the names; it is very possible that the list is still not correct. It also appears that there were some names omitted. (D=DIED, YRS=YEARS)
